

These poems are meant to be pondered over.
There is a message contained in each one.
There is a riddle to be solved.
I hope they may contain meanings for your life.

Got To Tell You

I got to tell you that you are a miracle.
You are alive.
We take it for granted.
Yet at the time of death, one sees how precious our breath is.
Nobody can escape it.
I know it may seem like I'm a broken record.
All the great masters are talking about the same thing.
They have conveyed the message in different manners all throughout the world.
Life is precious.
Know why you are alive.
I keep on saying the spiritual path is the most practical path.
Why do I say keep on saying this?
Imagine most of our lives we are skimming the surface of the ocean of life.
The wise man dives deep into the ocean of life and becomes won with it.
I love the following saying from dear old Albert Einstein.
I think 99 times and find nothing.
I stop thinking, swim in silence, and the truth comes to me.
This is a very wise man who said this.
He understood the law of silence.
You can't think your way to God.
Yet by learning how to be silent you can find God.
In the silence lies the vast mysteries of life.
I have seen many times before the following.
You are the universe.
You just don't know it.
You can never think this over and find the answer to this riddle.
The only way to understand this riddle is to swim in silence just like good old
Albert said.
I find Albert to be a genius on two levels.
He was a genius in the sciences and he understood the law of silence.
Combine both of these and you have a true human being.
Hu-Man = Divine Mind
Man = Mind
Big difference.
Albert lived in the center of the hurricane.
He lived in stillness.

Man has yet to learn truly live in silence.
Yes, millions of people are already on this path.
But this knowledge still hasn't been accepted into mass consciousness.
When it does the world will really start to change beautifully.
Kindness will take over.
Patience and tolerance will take over.
Love for one another will take over.
When a man truly understands that war is obsolete a huge shift will take place.
War is a past dead energy.
We will look at war BC and peace AD.
We will stop and ask ourselves how did we ever fight in the first place.
But first, we need to learn how to swim and dive into the ocean of life.
There are millions of people on this planet saying the same thing.
This is not my message.
This message is brought forth by millions of people.
This message comes from the yearnings of mankind.
We know that we are missing something.
We can't quite figure it out.
It's at our fingertips yet we can't quite touch it.
That makes us frustrated.
Why can't I find the answer?
Remember what dear old Albert said.
I think 99 times and find nothing.
I stop thinking, swim in silence, and the truth comes to me.
You can solve this puzzle.
The answer lies within.

Song Got To Tell You

(Verse 1)

I gotta tell you, you're a miracle
A precious life that we take for granted
In the face of death, we realize
Just how valuable every breath is
No one can escape this reality
I may sound like a broken record, see
But wise souls throughout time and space
Have preached the same message, in different ways

(Chorus)

Life is precious, know why you're alive
The spiritual path, it's the most practical drive
Diving deep into the ocean of life
Becoming one with its wonders, free from strife

(Verse 2)

Like Albert Einstein once wisely said
"I think 99 times and find nothing"
But when I stop, swim in silence instead
The truth reveals itself, a knowing springs
Silence is the gateway to understanding

You can't think your way to divinity
But through the stillness, you'll find serenity
Uncover the vast mysteries of life's grand landing

(Chorus)

You are the universe, yet unaware
The answer to this riddle can't be found by thought alone
To truly grasp it, silence is the path we dare
Like good old Albert knew, it's in silence we're shown

(Bridge)

Albert, he was a genius, in science and more
He grasped the power of silence at his core
To live within the center of life's hurricane
To find stillness amidst chaos and strain
Human, a divine mind we possess
But we're yet to learn how to truly live in silence, no less

(Chorus)

Though millions walk the same spiritual way
This knowledge still hasn't reached mass consciousness
When it does, the world will change, day by day
Kindness, patience, tolerance, and love will progress

(Verse 3)

When man realizes that war is obsolete
A monumental shift shall take its place
War, a forgotten energy, no longer to compete
We'll look back and wonder how we fell from grace
But first, we must learn to swim and dive
Into the vast ocean of life, as millions strive
This message is not mine alone to bring
It's born from the deepest yearnings humanity sings

(Chorus)

We know something's missing, just beyond our touch
In frustration, we seek answers, oh so much
But as Albert once said, and I truly believe
With silence, we find truth and our hearts achieve

(Outro)

So, my friend, solve this puzzle in your own time
The answer lies within, embrace the divine rhyme

Hang In There

No Matter what life throws at you.
Hang in there.
Life is a journey.
There will be bumpy roads ahead of you.
That's why it's a journey.
All the great masters have said to go within to answer the riddle of life.
This will make the journey more comfortable.
The same bumps in the road will occur.
Yet this car has great shock absorbers.
When it hits the bumps of the road in life it will cushion the bump.
You will still hit the bump but the effect on you will be relatively minor.
This is why I say the spiritual path is the most practical path.
The spiritual path teaches one how to deal with life's problems.
Over time you will learn all the necessary skills in life to make you a happy person.
You will learn how to weed your inner garden.
When you do this on a day-to-day basis flowers will bloom in your life.
Incredible fruits will manifest.
You will slowly morph from man to human.
Man = mind.
Human = divine mind.
This is the transformation that takes place.
It's a glorious one.
It's a humble one.
It involves the unity of the mind and heart.
It is a dropping of all negative energies and embracing the new.
Kindness is the energy that emerges in the union.
Love and compassion emerge.
Patience and tolerance emerge.
This is your true nature.
It's only to be discovered.
There is only dust on your inner mirror.
You can go within and clean this mirror.
Nothing is stopping you.
You have free will.
These messages hopefully will help you on this journey.
We are all on the same journey.
You and I are one and the same.
It may seem like we are different.

That's why there is so much division in this world.
Because we don't experience the unity of life there is separation.
Because there is a separation we can't see the forest for the trees.
Discover the jewel within you.
You can solve this puzzle.
Remember you are a piece of the puzzle.
You come here on earth to discover your true nature.
Hang in there.
You are alive.

Song Hang In There

(Verse 1)

In this journey called life, we'll face the test
No matter what it throws, we won't rest
Bumpy roads ahead, they're part of the ride
But we'll hang in there, side by side

(Chorus)

No matter what life throws at you
Hang in there, we'll make it through
With great shock absorbers, our souls are strong
Cushioning the bumps won't steer us wrong

(Verse 2)

The masters have taught, go within, find the way
Answer the riddle, make the journey more at bay
Skills in life, happiness we'll attain
Weeding our inner garden, flowers will sustain

(Chorus)

No matter what life throws at you
Hang in there, we'll make it through
With great shock absorbers, our souls are strong
Cushioning the bumps won't steer us wrong

(Bridge)

Man to human, a transformation takes place
A glorious, humble unity of mind and embrace
Dropping negativity, embracing the new
Kindness, love, compassion, a beautiful brew

(Verse 3)

Uncover your true nature, it's waiting inside
Clean the dust on your inner mirror, don't hide
Nothing stops us, we have the free will
These messages guide us, on this journey we fulfill

(Chorus)

No matter what life throws at you

Hang in there, we'll make it through
With great shock absorbers, our souls are strong
Cushioning the bumps won't steer us wrong

(Outro)

We're all on the same journey, you and I
United as one, our differences will defy
Discover the jewel within, solve the puzzle's art
Remember, you're a piece, a vital part

(Chorus)

No matter what life throws at you
Hang in there, we'll make it through
With great shock absorbers, our souls are strong
Cushioning the bumps won't steer us wrong

(Ending)

So hang in there, my friend, you are alive
Embrace the journey, let your spirit thrive

Hard Day Livin

This is to my old friends who passed away.
Many of them had a hard day living.
I guess that sex, drugs, and rock and roll can take a toll on life.
Many of my friends lived a hard life as my friend Nick once said.
There is a price to pay in life.
Nobody gets a free ride.
Amazingly, God does not judge us or criticize us.
We all have free will.
If we are eternal maybe the journey is a learning lesson.
We grow and learn for eternity.
I'm sure we all have experienced a hard day living.
Life can be hard on us.
At times we need an escape valve to let the steam of life get released inside of us.
It's like a pressure cooker.
At a certain point, the pressure must get released or the pot will blow up.
We all have our ways to deal with this in life.
Some are good for us and some overtime is destructive to us.
Some of my friends have died way before their time.
They were good friends of mine during my childhood.
Somewhere along the way they slept and fell and never knew how to pick
themselves up.
You have to have compassion for them.
Unfortunately in America today thousands of people are dying from opioid
addiction.
It's an epidemic.
People are overdosing left and right all across America.
This is even happening in small and big towns all across America.
It's sad to see that life is tough and people are risking death by taking these drugs.
Unfortunately, these drugs are highly addicting.
Once you're on them it's virtually impossible to get off them.
At times I have a theory the more difficult life becomes the more apt one will have
a hard day living.
It doesn't matter if you are rich or poor.
It's a state of mind.
If you perceive life without any chance to overcome your obstacles you might
succumb to a hard day living.
I wish in schools we were taught the power of the mind.

I wish all students were taught the power of meditation and the power of pondering
in life.
Maybe we were taught about philosophers but we weren't taught how to think like
one.
We were taught how to memorize things but never how to truly think for ourselves.
No wonder the school's systems are what they are today.
Kids are bored.
The school system hardly provides an atmosphere for quenching the thirst for life.
Kids go off to college and many of them get hooked on drinking for the rest of
their lives.
It's become the social norm.
Look there is nothing wrong with drinking if it's under control.
But binge drinking is another story.
How many young adults have died in college because of this?
Their parents paid good money for this.
Yet the college scene at times has its dark side.
Many young adults if they survive take on this attitude after college.
Drinking is a social way to release the problems of life.
I hope this isn't a soapbox.
I'm not judging people.
I'm simply pointing out that as a society we can change our ways.
It begins with you and me.

Song Hard Day Living

(Verse 1)

To my old friends who passed away
Living a hard life, every single day
Sex, drugs, and rock and roll took their toll
But they were more than what the world could hold

(Verse 2)

My friend Nick once said, life comes with a price
No free ride, no escape from sacrifice
Yet, God doesn't judge or criticize
We all have free will, we all have our own device

(Chorus)

In this eternal journey, we learn and grow
Through the highs and lows, we continue to sow
We've all faced a hard day living, it's true
But there's always a way to break through

(Verse 3)

Life can be tough, a pressure cooker indeed
We all need an escape, a way to be freed
Some find solace in destructive ways
But compassion is what we should display

(Verse 4)

Sadly, opioids claim lives too soon
An epidemic sweeping across town and boon
People risking death, seeking an escape
Addiction's grip, they struggle to break

(Chorus)

In this eternal journey, we learn and grow
Through the highs and lows, we continue to sow
We've all faced a hard day living, it's true
But there's always a way to break through

(Bridge)

In schools, let's teach the power of the mind

Meditation, pondering, the ability to find
New ways of thinking, like philosophers of old
Empowering students to be bold

(Verse 5)

The school system lacks the spark for life
Leaving kids bored, searching for strife
College becomes a breeding ground for excess
Binge drinking taking its toll, causing distress

(Verse 6)

But we can change our ways as a society
It starts with you and me, embracing sobriety
No judgment, just a call to reflect and see
The power to create a better reality

(Chorus)

In this eternal journey, we learn and grow
Through the highs and lows, we continue to sow
We've all faced a hard day living, it's true
But there's always a way to break through

(Outro)

Let's stand together, hand in hand
Creating a world where understanding expands
No more hard days living, let's find peace
In this journey, may our love and compassion never cease

Heart Of Gold

Did you know that you have a heart of gold?
That is your true essence.
Your true nature is kindness.
Your true nature is patience.
Your true nature is tolerance.
Your true nature is love and compassion.
This is who you truly are.
You may think I'm macho.
Yet deep down inside you have a heart of gold.
This is the true nature of a human being.
God exists inside of us.
You are a part of God.
All the great masters have said that.
The jewel of life lies within.
Unfortunately, we have lost touch with our true nature.
The dust has gathered on the mirror of life.
When we look into the mirror we can't see our true nature.
How would this journey of life be if we could see who we truly are?
This world would be heaven on earth.
I know I'm a broken record.
Saying the same message over and over.
Yet all the great masters have come and said the same thing.
I do not have a master's yet I am a student of life.
I do have some insight over the years.
I'm not here to brag.
There is nothing to brag about.
I'm simply trying to convey your true nature.
I'm not trying to convert you.
There is nothing to convert to.
Every one of us has God existing inside.
It doesn't matter who you are.
It doesn't matter your religion or views about God.
It doesn't matter if you are an atheist.
God exists in your friends and enemies.
Simply God exists in the entire universe.
As I said before you are the universe.
You just don't know it.
You have been down this journey of life before.

You know that life has many bumps and potholes.
That's the nature of life.
Nobody gets a free ride.
Yet the journey and self-discovery within cushions the bumps in the road.
It's like God is in the passenger seat when you drive.
You may not see him but that doesn't mean he is not there.
You can't see love but you can feel it.
God will not drive the car for you.
It's your own journey.
You have free will.
You truly can do anything you want.
Yes, there may be consequences.
Yet they don't come from God.
God does not judge you.
Man judges.
Millions of people all around the world are discovering their true nature.
This is probably the greatest time to be alive.
There is an evolution revolution of love occurring in this world.
Young people today are questioning the war.
Why are we fighting?
War is obsolete.
A new way of thinking and being is occurring on this planet.
The media doesn't see it.
Yet occasionally we see glimpses of it.
At times a Facebook post will give us glimpses of our future.
It is quite grand.
Imagine the world learning how to be peaceful.
Imagine the world learning how to live in stillness.
Imagine the world as our friends.
As friends, you may disagree on things but you will never go to war.
You will just work things out.
This will take a while to occur.
Mark my words peace will be on this earth.
Remember you have a heart of gold.

Song Heart Of Gold

(Verse 1)

Did you know that deep inside, you hold a heart of gold?
It's your true essence, a treasure to behold.
Kindness flows within you, in every single way,
Patience, tolerance, love and compassion each day.

(Chorus)

This is who you truly are, shining bright and true,
A reflection of the divine, a part of God in you.
Let's look beyond the surface and see what lies within,
Embrace your true nature, let love and light begin.

(Verse 2)

Some may see you as tough, a macho kind of soul,
But underneath it all, a heart of gold unfolds.
The great masters have taught us, we're connected to the divine,
The jewel of life, within us all, it's ours to truly find.

(Chorus)

Yet, we've lost touch with our true nature, clouded by life's demands,
The mirror of our existence, covered in dusty strands.
Imagine if we could see, who we truly are,
This world would become heaven, shining like a star.

(Verse 3)

I may not claim mastery, but I'm a student just like you,
With years of insight, wisdom that I've accrued.
No need to boast or brag, for there's nothing to prove,
Just sharing your true nature, my only motive, true.

(Bridge)

It matters not your beliefs, or the path that you choose,
For God exists in us all, regardless of our views.
God resides within your friends, and yes, your enemies too,
In the vastness of the universe, God's presence always grew.

(Chorus)

Remember, you are the universe, a part of its grand design,

Though you may not be aware, it's true, and it's divine.
You've treaded this journey before, faced life's bumps and holes,
But discovering your true self, cushions the journey's tolls.

(Verse 4)

Like a passenger in your car, God sits beside you, unseen,
Love may be invisible, but it's felt, even in between.
You have free will to navigate, this journey on your own,
No judgment comes from God, it's from man, it's shown.

(Bridge)

Across the world, an evolution revolution takes its stand,
A generation questioning why war still taints the land.
A new way of thinking, of peacefulness and love,
Imagine a world united, like friends, soaring high above.

(Chorus)

It may take time, but peace will grace this earth,
Mark my words, it will happen, a rebirth and new birth.
Amidst the chaos, remember, you hold a heart of gold,
Embrace your true nature, let love and light unfold.

(Outro)

So, as you journey through life, remember who you are,
A beacon of love, compassion, shining like a star.
Embrace your heart's treasure, let it guide you on your way,
For you are a part of something greater, a heart of gold, I say.

Hit The Wall

Have you ever felt that you hit a wall in life?
I can't go any further.
I'm all walled in.
How do I get myself out of this situation?
We face bumps in the road.
Life wouldn't be a journey without them.
Yet it's so easy to freak out and go into fear.
Is there another way that we can face the wall and obstacles and be in a state of
freedom?
Freedom is a state of mind.
Our happiness is not dependent upon the external.
Our happiness comes from within.
We are meant to live in the center of the hurricane.
Yet we still live in the vicious winds of the mind.
An obstacle comes up in life and we freak out.
Someone has a different opinion in life and we have to defend ourselves.
We have a President if you say anything against him he will tweet nonsense about
you.
All the great masters have seen to face the wall calmly.
Face it directly.
You will find a solution to your problems.
The wall will disappear.
The wall is a state of mind.
Mind you the obstacle might still be there yet you will see the obstacle from a
higher level in life.
Again I say the spiritual path is the most practical path.
It deals with all areas of life.
It's the essence of life.
You can learn how to be peaceful and joyful when you hit a wall in life.
You can be calm and serene.
You can be mindful.
This is your true nature.
Instead of putting gasoline on the fire of life.
You can put water on the fire.
Eventually, the fire will not burn anymore.
All the great masters did this.
They had the same fire you have.
Over time they learned how to slowly extinguish the fire.

You have the same tools as they do inside of you.
Look inside of you to solve this riddle.
Ponder this over.
You are a piece of the puzzle.

Song Hit The Wall

(Verse 1)

Have you ever felt that you hit a wall in life?
I can't go any further, I'm all walled in, alright?
But how do I escape, this situation I'm in?
Facing bumps on the road, it's a journey we begin.

(Chorus)

Yet it's so easy to freak out and go into fear
Is there another way to feel freedom so near?
Freedom is a state of mind, it's not external
Happiness comes from within, it's eternal

(Verse 2)

We're meant to live in the center of the hurricane
But we often dwell in the winds inside our brain
Obstacles arise and we freak out in a haze
Different opinions, defensive in so many ways

(Chorus)

But the great masters faced the wall with calm grace
Directly, finding solutions to their every case
The wall may still be there, but higher we'll rise
Seeing obstacles from a perspective that's wise

(Bridge)

The spiritual path is practical, it's true
Dealing with every aspect, guiding me and you
Learning to be peaceful when walls block our way
Being calm, serene, and mindful every day

(Chorus)

It's our true nature, to find peace in the storm
Instead of adding fuel, let's put water on the fire's form
Just like the masters before us, we can extinguish the flame
Inside us, we hold the tools to rise above the game

(Outro)

Look inward, my friend, the answers are there

Reflect on this riddle, with a heart that's aware
We are all a piece, a vital part of the puzzle
Unveiling our true selves, with joy and love as our muzzle

Hope Springs Eternal

Hope springs eternal.
We have a deep well of external hope that lies inside.
This well will never dry up.
It is always flowing to the surface.
When you hit a bumpy road in life you can drink from the fountain of hope.
Hope will comfort you.
Hope will make the journey of life easier.
This is part of your true nature.
Hope is a gift from God to you.
We all have obstacles that come our way.
I just finished a contract and I'm looking for a new job.
I have hope and faith that I will find one.
I know that all of us can be hopeful for the future.
A job will come my way.
It's like being caught in the riptide of life.
You can't struggle or fight it.
But you can swim to the left or right of the rip tide to get out of it.
The perfect job is out there.
All I have to do is swim to the left or right of the rip tide in life.
We are meant to live in stillness and tranquility.
We are meant to live in the center of the hurricane.
Hope is the medicine to help calm down the mind.
Hope places you in the center of the hurricane.
I keep saying that the spiritual path is the most practical path.
There is a huge collection of tools that we can use on this journey of life.
Hope is one of them.
I'm at a certain age where many people my age don't get a job because of their
age.
I have seen this a lot in the interview process.
Many of the jobs I went after I would have easily got 10 years ago.
Yet I have hope.
I know there is a job out there.
I'm not over the hill.
I have an impressive resume.
Hope is the force that drives me forward.
Hope is the force that drives you forward in life.
Tap into the well of life.
You will be glad you did

Song Hope Springs Eternal

(Verse 1)

Hope springs eternal, deep inside of me,
A well of strength and faith, that'll forever be,
It never runs dry, forever flowing free,
In times of trouble, it's the fountain I see.

(Chorus)

When life gets rough, and bumpy roads appear,
Drink from the fountain, let hope comfort your fears,
It eases the journey, makes everything clear,
Hope is our true nature, always drawing us near.

(Verse 2)

A gift from above, bestowed upon us all,
We face obstacles, but with hope, we'll stand tall,
Searching for a job, after a contract's fall,
With hope and faith, a new opportunity will call.

(Bridge)

Like a riptide in life, we can't fight or resist,
But we can swim left or right, to overcome the twist,
The perfect job awaits, just outside the mist,
Hope guides our path, to a future we can't resist.

(Chorus)

We're meant to find stillness, amidst life's hurricane,
Hope calms our minds, and eases every strain,
The spiritual path, a practical way to sustain,
With hope as our tool, we'll progress without refrain.

(Verse 3)

In a world where age hinders so many dreams,
I've faced it in interviews, or so it seems,
But I hold onto hope, despite society's schemes,
With an impressive resume, I'll surpass their extremes.

(Chorus)

Hope is the driving force that propels me ahead,

In life's vast ocean, I take each step with tread,
Tap into life's well, where hope's forever spread,
You'll be glad you did, as you navigate life's thread.

(Outro)

Hope springs eternal, a beacon in the night,
Guiding us forward, with its powerful light,
Through ups and downs, hope keeps us upright,
Embrace its strength, and your future will shine bright.

.

I Don't Care What You Think About Me

I don't care what you think about me.
Everyone will have different opinions about you.
Just ask the Dali Lama.
He is probably one of the kindness people on earth yet the Chinese government
hates him.
They were kicked out of Tibet many moons ago.
Yet his kindness radiates to all.
Friend or foe.
The world needs that.
The Dali Lama says kindness is my religion.
I totally agree with that.
With that kind of awareness, the Dali Lama has compassion and love towards the
Chinese government.
It isn't resentment.
I'm sure in the beginning there was.
The Dali Lama even admits that he had quite a temper tantrum when he was
young.
It goes to show that over time one can overcome one's anger.
Nobody gets a free ride in life.
We all have to overcome obstacles and emotional problems in our life.
Many moons ago I didn't understand why each day he would go over his daily
activities and make slight adjustments to what he would do.
Auh in the situation I could be a little more patient.
I could be more patient with this person
I might not have been totally there when I spoke to him.
You see slight adjustment day by day makes the individual.
There is not one leap that will get you there.
This is not a super garden where in one moment fruits will arrive on the vine of
life.
This path is a day by day.
Moment by moment is awareness of your thoughts and actions.
Here again, is my broken record.
The spiritual path is the most practical path.
It takes complete dedication.
It spills over into all areas of life.
It starts from within and floods externally.
Your awareness is expressed in your actions.
If your mind is kind.

You will be kind.
I'm always amused when I see people driving on the freeway.
Some people weave in and out of traffic.
You can almost see a trail of impatience.
Get out of my way.
Some people will tailgate you.
They act like bullies at the playground.
They are totally insecure.
That's why they are a bully.
They have distorted views on life.
They aren't happy.
I love the ones driving in the slow lane having the time of their life.
They aren't in a hurry.
Yes, they are driving to work.
But today is a brand new day and they know it's a miracle to be alive.
They flow with life and pay attention to it.
Isn't this a grand day?
I'm driving in the slow lane of life.
I'm capturing the beauty of the moment.
My mind is at ease.
What a beautiful life we have.

Song I Don't Care What You Think About Me

(Verse 1)

I don't care what you think about me,
Opinions vary but that's how it'll be,
The Dalai Lama, his kindness is renowned,
Even though the Chinese government won't come around,
Kicked out of Tibet, their love remains unbound.

(Chorus)

Kindness is our religion, let's all agree,
Compassion and love, the path to set us free,
Overcoming anger, overcoming strife,
In this journey, we all face obstacles in life.

(Verse 2)

Day by day, the Dalai Lama makes adjustments,
Learning patience, avoiding moments of impatience,
We all have the power to grow and change,
No one gets a free ride, life can be strange,
But through awareness, we can rearrange.

(Bridge)

The spiritual path, practical and true,
It takes dedication, it encompasses all we do,
Starting within, it spills into our lives,
With kind minds, we ensure happiness thrives.

(Chorus)

In a world on the fast lane, filled with impatience,
Some weave through traffic, causing annoyance and frustration,
But the ones in the slow lane, savoring the ride,
Embracing the beauty of each moment, with gratitude they stride.

(Outro)

Today is a miracle, a new day to rejoice,
Driving in the slow lane, hearing nature's voice,
Capturing the beauty, letting our minds find ease,
A reminder of the wonderful life that we seize.

I Don't Want To Go To War Against You

I don't want to go to war against you.
Many young people say this today.
Even the youth in Israel and Palestinian are saying this.
Why are we fighting?
Do we even remember why?
War is obsolete.
Only barbarians have war.
We have the internet.
We can solve conflicts with one another.
We can think outside of the box.
We can compromise.
We can bend like the reed in the wind.
Both of us are talking about the same thing.
Both sides want peace.
We all came from the same family.
We came from the same Creator.
Our youth will help change mankind.
Our youth are kind man.
They have an awareness that is different from us.
They came into this world with an awareness that war is obsolete.
You could say they are a little more mature than us.
They know how to compromise.
War has been on the planet for thousands of years.
It has never truly solved anything.
We just keep on fighting.
We are caught playing the same song over and over.
The youth are saying let's play another song.
They want to play the song of peace.
And they are playing it.
Millions of people all around the world are joining the bandwagon.
It's a silent revolution.
No shots will be heard.
It's an evolution revolution of love.
Millions of people are discovering their true nature.
Regardless of caste, color or creed.
We are all the same.
We are the universe.
We just don't know it.

We can change.
Each and every one of us.
Inside each one lies the precious jewel of life.
It's waiting to be discovered.
Ponder this over.
I don't want to go to war against you.
You are only fighting against yourself.

I Feel So Good When I Feel Love

I feel so good when I feel love.
Did you know your true nature is love?
Every single part of your DNA is created by love.
The entire universe's true essence is love.
You might say there is a divine intelligence that exists in the universe.
There is a master plan.
Each one of us is united by the thread of love.
It is woven into our true nature.
You were born to discover this.
Love has never left you.
It's just waiting to be discovered inside.
You have experienced this many times before.
The birth of a child.
Holding your lover in your arms.
Being in nature.
Looking at sunrise or sunset.
Looking at the stars at night.
Somehow by grace, it triggers love to surface inside.
It's always been there.
We just connect to it once again.
The great masters have said that you can connect to the essence of love twenty-
four hours a day.
It's just one breath away.
When the mind connects to the source of your breath love emerges.
You don't need anything external to trigger it.
Granted it takes time.
You knew that.
This is how you can learn to live in the center of the hurricane.
In the center is stillness.
In the center is love.
In the center is peace.
This is your true nature.
We have lived in the winds of the hurricane for so long.
We think this is our true state.
We can't even imagine that there is a center in the hurricane.
What no way.
Are you telling me the truth?
How come I don't know there is a center?

Well, maybe it's time to discover your true nature.
There isn't any conversion.
We aren't trying to convince you.
Love doesn't need convincing.
Love doesn't boast and says I'm special.
Love just is.
The great masters just smile.
Love washes away the negative emotions inside.
Love washes away anger over time.
Love washes away the need to fight and go to war.
Love washes away the greed that might exist inside of you.
Love is like water.
Water is soft yet over time will dissolve a hard rock.
Love over time will wash away the harness inside of us.
We think that kindness is weak.
Only a weak soul is kind.
Yet the entire universe is kind.
We have been living so long with countries going to war that we have forgotten
our true nature.
We still live in a world where greed is good.
Why does 1% of the world have more money than 99% of the world?
Our values are off.
This is changing.
Millions of people are waking up.
The more people wake up from their slumber the quicker this world will change.
Darkness is only the absence of light.
You knew that.
Imagine when millions of people hold candles within.
Their candles are lit.
Darkness will disappear.
You have a candle inside of you.
Light your candle.
You are a piece of the puzzle.
Ponder this over.
I feel so good when I feel love.

Song I Feel So Good When I Feel Love

(Verse 1)

I feel so good when I feel love,
A force that's pure, divine and above,
It's in our DNA, our essence and core,
The universe itself, all love and more,
A divine intelligence, a master plan,
Uniting us all in a cosmic span.

(Chorus)

Love has never left, it patiently waits,
Inside our souls, it peacefully resonates,
Through the birth of a child or lover's embrace,
In nature's beauty, love finds its place,
With each breath we take, love is near,
Connecting us all, making everything clear.

(Verse 2)

No external trigger is needed, you see,
Love emerges from within, naturally,
Though it takes time, it's worth the wait,
To live in the center, where stillness is fate,
Peace and love, our true nature lies,
No longer lost in the hurricane's cries.

(Bridge)

We've lived in the winds for far too long,
Thinking it's our true state, that we belong,
But now we discover the center's serenity,
Our true nature, love's everlasting certainty,
No conversion or convincing needed to be,
Love simply is, setting our souls free.

(Chorus)

Love washes away negative emotions inside,
Anger, greed, and war it will subside,
Kindness is not weak, it's the universe's trait,
We're waking up, changing the world's current state,
Millions of candles being lit, illuminating the night,

Darkness fades as love becomes the guiding light.

(Verse 3)

You have a candle inside, waiting to ignite,
Light it up, be a piece of love's puzzle, alright,
Let's ponder and embrace the power of love,
In a world where values must rise above,
When we feel love, we feel so good,
Spreading its warmth and joy, as we all should.

I Feel So Much Love

I feel so much love.
The universe is saturated with love.
Every speck is filled with the love of God.
Your DNA is love manifest.
You are a blueprint of God.
You are created by God.
You are an image of God.
God does not have a human form.
Yet you were created in his image.
God does not have a gender.
The image of God can't be seen externally.
It only lies within.
That's why all the great masters have said to find the precious jewel within.
There you will discover your true nature.
Surfers ride the ocean waves.
Mystics ride the waves of love.
Both of them get incredible rides.
I'm both a surfer and a mystic.
I'm having the ride of my life.
Love truly is the essence of life.
We are all looking for it.
The world desperately needs it.
We have been fighting for so long.
We have spent sixteen years in Afghanistan and we will never win that war.
War is obsolete.
Love is truly the answer.
When humanity will truly embrace and discover love within, the world will be at
peace.
Love is practical.
It serves a purpose.
War is not practical.
Not unless you think to bring young boys back in a box.
I'm all for being a patriot of your country.
Yet this war machine has got to stop.
War is the absence of love.
War only divides man.
Love unites.
Even when the entire world discovers its true nature.

There will be conflicts.
Yet these will be peaceful conflicts.
They will be solved by compromise.
Swords will never be drawn.
The politicians will be skilled with words.
They will know how to communicate from deep within.
They won't be like some today who speak what comes to their minds.
Big difference.
Love will show the way.
I feel so much love.
The universe is keeping me alive.
Ponder this over.
You are a piece of this puzzle.

Song I Feel So Much Love

(Verse 1)

In this vast universe, love saturates every space,
With each speck filled with God's divine embrace,
Our DNA, a manifestation of love's magic,
A blueprint of God, a creation so majestic,
No human form or gender can define,
The image of God, hidden within the divine.

(Chorus)

Find the jewel within, the treasure of your soul,
Ride the waves of love, mystics and surfers behold,
In this cosmic journey, embracing love as our guide,
Discovering true essence, feeling love inside,
For love is the essence that keeps us alive,
A puzzle piece, together we thrive.

(Verse 2)

The world seeks love, a desperate need,
Longing for peace, from conflict be freed,
War, an obsolete path that can't bring liberation,
Love, the answer, a practical foundation,
No more young boys in boxes, no more lives lost,
Let's be patriots of love, humanity's cost.

(Bridge)

War divides, love unites,
In discovering our true nature, conflicts may ignite,
But in peaceful ways, they will be resolved,
With compromise and understanding involved,
Swords remain sheathed, to words we'll resort,
From within, with love, skillfully we'll communicate.

(Chorus)

Love will guide the way, showing us the path,
Peaceful conflicts, a world free from wrath,
Politicians skilled with deep words to convey,
Setting an example, leading the way,

Love's power prevailing, mending the divide,
Feeling so much love, keeping us alive.

(Verse 3)

Ponder these words, let them sink deep within,
You are a piece of this puzzle, a love to begin,
Embrace your true nature, let love radiate,
With each breath you take, become the love you create,
For you are connected to the universal whole,
A vessel of love, an eternal soul.

(Outro)

In this universe saturated with love divine,
Let it be the guiding force, let it intertwine,
With every heartbeat, every thought sublime,
Together we'll shine, united for all time,
Feeling so much love, the universe we reside,
A piece of the puzzle, love's power inside.

I Got The Blues

I got the blues
I've been watching the devastation that Hurricane Harvey has done.
Houston is flooding all over.
The CNN headlines are the water keeps rising as more rain falls on Houston.
The officials plan to open dams which will add to the flooding in some areas.
Nature at times is a beast.
Yet mother earth needs hurricanes.
It's a way to restart the system.
The ocean needs to be recycled.
I wonder at times if by having all that asphalt we are compounding the problem.
Water has to go somewhere.
Can we dig canals in our streets so that when hurricanes hit the water can go
somewhere?
We are smart and intelligent.
We see to think about how to resolve this problem.
Imagine storm after a storm hits the United States.
Each year billions of dollars of damage occur.
Can we build our houses on stilts?
Is there a way to waterproof our houses?
We need to think outside of the box.
We need to build our houses for any futural event.
I live presently in the midwest.
Hurricanes are a fact of life.
Devastation occurs when they hit neighborhoods.
People lose their lives.
Why can't we build houses that would survive a hurricane?
Buckminster Fuller built one many moons ago.
It's the same with earthquakes.
Are we smart to build hospitals right on the fault line?
We need to build buildings that can sway with the wind.
The way we think and operate hasn't changed much over the decades.
To be honest, money is the problem.
Greed is the problem.
Let's build a house as fast as possible.
We can create shortcuts.
It's not my house.
Someone else is going to buy it.
The whole world works this way.

Modern medicine doesn't heal.
It just hides the symptoms and has tons of side effects.
Nature is our friend.
Nature does not plan to kill us.
Nature is not evil.
Hurricanes, tornados, and earthquakes are nature's way of healing itself.
What happens when you get the flu?
Your body will shake and tremble.
Nature works the same.
We have been on this planet for thousands of years.
We are intelligent enough to think outside of the box.
Yet we do the same thing over and over.
A catastrophe occurs.
We rebuild.
A catastrophe occurs.
We rebuild.
A catastrophe occurs.
We rebuild.
We need to truly think outside of the box.
I said that phrase again.
We need to truly think outside of the box.
We need to find a solution.
Nature is not against us.
Maybe the only problem is man.
We blame nature for our problems.
Maybe we should blame ourselves.
We do the same thing over and over.
The Netherlands knew how to capture land from the sea.
They thought outside of the box.
Japan has spent billions learning how to create skyscrapers in the sky that could
withstand an earthquake.
It's not perfect but they have come so far.
Nations all around the world are doing something.
They are getting innovative and creative.
They are thinking outside of the box.
Maybe it's time we do the same.
Nature always will heal itself.
What we call disasters will always occur.
This is a fact of life.
We can learn how to live in harmony with nature.

Song I Got The Blues

(Verse 1)

I've been watching the devastation, Hurricane Harvey on its path
Houston's drowning in the floods, it's a mighty aftermath
CNN headlines screaming, water rising higher each day
Opening dams may add to the flood, it's nature's wild display

(Chorus)

Oh, I got the blues
As I witness the news
Mother Earth needs hurricanes, it's true
But can we find a way to start anew?

(Verse 2)

Water seeks its course, it needs a place to go
Can we dig canals in streets, let the floods freely flow?
We're smart and intelligent, we solve problems every day
Let's think outside the box, find a better way

(Bridge)

Storms upon storms, wrecking billions, year by year
Can we build our homes on stilts, make the future clear?
Find a way to waterproof, protect our cherished lives
It's time to build for tomorrow, foreseeing nature's strikes

(Chorus)

Oh, I got the blues
When I see what we lose
Buckminster Fuller showed us long ago
Building houses to withstand nature's blows

(Verse 3)

Earthquakes shake our streets, hospitals on fault lines
Should we sway with the wind, modern minds align?
Decades pass but our thinking stays the same
Greed and money hinder, it's a troubling game

(Bridge)

Nature is not our foe, it seeks to heal and mend

Hurricanes, tornados, and quakes help it transcend
When we get the flu, our bodies shake in pain
Nature works the same, to heal it must sustain

(Chorus)

Oh, I got the blues
When we blame nature for the dues
Let's break this cycle, think outside of the box
Find solutions, honor nature's paradox

(Verse 4)

The Netherlands reclaimed land from the sea
Japan's skyscrapers withstand quakes, a victory
Nations innovate and create, unlocking nature's code
It's time we join the effort, let our brilliance unfold

(Bridge)

We must learn to coexist, in harmony with our Earth
Disasters will always strike, for this is life's worth
Let's think beyond the ordinary, embrace a grand design
Together we can heal, where nature and humans align

(Chorus)

Oh, I got the blues
When we don't change our views
It's time to break this vicious cycle, my friend
Think outside of the box, let a sustainable era begin

(Outro)

Nature always finds a way, it will heal itself, you see
We must learn to adapt, live in harmony, and be free
So let's face the truth, take responsibility, and strive
To build a future where nature and humankind can thrive.

If Death Approaches You

If death approaches you what do you do?
Now good old Bugs Bunny might say don't take life so seriously.
You will never get out of it alive.
It's not a question of if but when.
We roll the dice in our life.
I remember being young and riding a razor's edge when surfing a huge wave.
If you feel you were in for your worst nightmare.
Imagine being held underwater for what seems to be an eternity.
At times you may be held down for two waves.
At that time you really are aware of how precious your breath is.
You mustn't panic.
You must let go and totally relax.
I think that surfing and meditation teach one about death.
All surfers at one time or another get into a circumstance bordering between life
and death.
It could go either way.
Yet the surfer keeps on surfing.
Not all.
In the sixties, a famous surfer named Greg Noll took off on a wave that nobody
should ever take off on.
It was the wave of the century.
He didn't make the wave but he made the drop.
He got obliterated.
Greg made it to shore and gave up surfing.
I probably would have too.
He escaped the lion's den.
Surfing brings one to the borderline of life and death.
If you're not a surfer it's hard to describe.
Your awareness changes over time.
Meditation is just like surfing.
Only you catch the wave inside.
Meditation brings one to the same state of being borderline between life and death.
Life and death are only one breath away.
Life and death are intertwined.
Ask a surfer and a mediator.
They will tell you there almost the same.
In reality, we never die.
The body does.

Yet our soul is eternal and timeless.
You are the universe.
Death unites you back to your true state.
This is your true nature.
A surfer rides the wave and feels the harmony of the universe.
He can't truly express it.
Yet he goes on surfing forever.
I have been meditating for many moons.
Surfing and meditating are both ways to truly capture the wave of life.
Your respect for life is enhanced.
When you are brought to a life-and-death situation your perspective changes.
Somehow you can see how precious life is.
Maybe that's what it is all about.
The gratitude of being alive fuses into your being.
Wow, I'm alive.

Song If Death Approaches You

(Verse 1)

If death approaches you, what will you do?
Bugs Bunny would say, don't take life too seriously.
For we all know, we won't get out alive.
It's not a matter of if, but when we'll say goodbye.

(Pre-Chorus)

We roll the dice in this game of life.
Sometimes balancing on a razor's edge, chasing a thrilling ride.
Like surfing a massive wave, feeling the rush inside.
But what if your worst nightmare becomes your reality?

(Chorus)

Imagine being held underwater, struggling to breathe.
For what feels like an eternity, your fears take the lead.
In those moments, you must release, let go and relax.
Because in surfing and meditation, we learn about death's tracks.

(Verse 2)

Surfers and meditators walk the line between life and death.
Every wave, every breath, a reminder of life's fragile breath.
Greg Noll's wave of the century, he took the drop and got obliterated.
But he made it to shore and chose to live when some would have hesitated.

(Bridge)

Surfing and meditation bring us to that borderline.
Where life and death merge, where our awareness aligns.
They teach us that we never truly die, just our bodies fade away.
For in the depths of our souls, eternity holds sway.

(Chorus)

Surfers and meditators, together they know.
That life hangs by a thread, just one breath to let go.
They understand the unity of life and death's embrace.
For in the grand design of the universe, we find our rightful place.

(Bridge)

Surfing and meditating, capturing the wave of life.

Deepening our respect, with each passing moonlight.
In the face of life and death's intertwining hand,
Gratitude for being alive, forever it shall expand.

(Chorus)

Wow, I'm alive, the words echo in our hearts.
The harmony of the universe, that's where life truly starts.
So if death approaches us, let us face it with grace.
For in surfing and meditating, we find life's embrace.

(Outro)

Surfers keep on surfing, riding the waves of existence.
Meditators continue seeking, finding inner peace's persistence.
For in the dance between life and death, we discover our true nature.
Eternal souls, intertwining with the universe's stature.
